PROFESSIONAL SUMMARY

Technical Support Associate with 1+ year of experience in network troubleshooting, technical analysis, SLA management, and documentation. Hands-on experience with Linux, AWS EC2, IAM, and Apache, with a focus on cloud infrastructure and operations. Seeking an AWS Cloud Support Engineer role.

TECHNICAL SKILLS

- Cloud & AWS: AWS IAM, EC2, S3, VPC, Cloud Infrastructure
- Operating Systems: Linux (Ubuntu, Amazon Linux), Linux Commands, File Permissions
- Networking: TCP/IP, DNS, IPv4, Subnetting, HTTP/HTTPS, SSH
- Programming & Databases: Python, C, Flask, MySQL, HTML, CSS, JavaScript
- Tools: Git, GitHub, VS Code, Apache HTTP Server
- Technical Support: Troubleshooting, Issue Resolution, SLA Management, Documentation

PROFESSIONAL EXPERIENCE

Associate, Technical Support | Tech Mahindra | May 2025 – Sep 2026

- Analyzed network requirements, connectivity data, and infrastructure specifications for a UK-based client.
- Performed network data validation, identified connectivity issues, and supported troubleshooting to meet SLA and quality standards.
- Maintained technical documentation, updated network design records, and collaborated with cross-functional teams to resolve technical issues.

TECHNICAL PROJECTS

AWS Cloud Support Lab | EC2, VPC, S3, IAM, Linux, Apache

- Deployed an Apache website on EC2 and configured VPC networking and security groups.
- Configured IAM-based S3 access, CloudWatch CPU alarms, and SNS email alerts.

GitHub: https://github.com/pankaj0924/mycloud_support_lab

AWS S3 Backup & Recovery | Amazon S3, IAM, AWS CLI

- Implemented S3 bucket versioning, IAM permissions, and AWS CLI-based backup and recovery.

GitHub: https://github.com/pankaj0924/S3-Backup-Recovery

PRO CV Builder | Python, Flask, MySQL, HTML, CSS

- Developed a resume builder with multiple templates, user authentication, and profile management.
- Designed a MySQL database for user data storage and resume management.
